

## What is it?

**All Access is** our suite of digital music channels designed specifically for business use. All Access is an alternative to Muzak or DMX and a high quality upgrade from consumer services like Sirius/XM satellite radio, local FM radio, Pandora, iPods or CDs.

## Who's it for?

### 1+ Locations

Great for single or multiple-location businesses.

Places like restaurants, coffee shops, wine bars, fitness/health clubs, hair salons, professional offices and more!

Any business that's looking for a unique music mix to compliment their unique atmosphere and environment. Any business interested in, but not yet ready to try their own fully custom channel.

## Features

### PROFESSIONALLY HAND-CRAFTED MUSIC

You get multiple "ready-to-go" music channels curated by the same music professionals that create our fully custom channels. It's the same care and attention - at a lower price.

### PLUG-N-PLAY SIMPLICITY

No computer, no antenna, no dish, no rooftop access required. All you need is your existing high speed internet connection (DSL, Cable, T1, etc.)

### BETTER MIX

We schedule the exact order your songs will play using the same sophisticated music scheduling software used by radio broadcasters. This insures an always great mix and less repetition.

### FULLY LICENSED

Never be at risk for playing CDs, iPod, Pandora or local FM radio without a license. ALL ASCAP, BMI, SESAC and SoundExchange licensing and reporting is included.

### HIGH-QUALITY DIGITAL SOUND

No variations in volume from song to song

### NO INTERRUPTIONS

That's not true with consumer services like Sirius/XM satellite radio, local FM radio, Pandora, or even your own CDs or iPod.

### LOW COST

Our easy-to-install, \$250 Internet receiver is less costly than commercial hard drive or CD/DVD players. It has no moving parts and no hard drive or disc drive to fail.

### TONS OF CHANNELS

Pick the sound that fits your brand and environment. Or switch channels anytime based on time-of-day or mood.

### 30-DAY FREE TRIAL
